|-------------|-----------------------------------|--|
| <b>10.1</b> | <b>Introduction</b>               | The “Quotation Management Screen” (PR604) summarizes the recorded vendor responses to an RFQ. The system will automatically display responses that are received via EDI. Responses that are received via mail, fax, oral conversation, etc. must be manually recorded on the “Response to Request for Quotations Screen” (PR612) before the system will display them on PR604. |
| <b>10.2</b> | <b>Who Performs the Procedure</b> | Each buyer will be responsible for entering non-EDI vendor response data applicable to his/her RFQ(s) and for reviewing, and managing the responses to those RFQ(s). Only responses related to a specific RFQ will appear on the “Quotation Management Screen” (PR604) at any given time.  |
| <b>10.3</b> | <b>Initiating the Process</b>     | The process begins when vendors reply to an open RFQ. Responses that are received via mail, fax, oral conversations, etc. must be manually recorded by the buyer on PR612. If responses are received via EDI, then the responses will automatically populate PR612. The buyer then reviews the responses on the PR604 screen.  |
| <b>10.4</b> | <b>Accessing the System</b>       | From the Main Menu, select Transaction. From the Transaction menu, select Procurement. From the Procurement menu, select “PR606 - Request for Quotations”. On PR606, double click on the relevant RFQ number. The “Quotation Management Screen” (PR604) will appear. Follow the steps below for PR604 and PR612.   |

## 10.5 Recording a New Vendor Response

This procedure describes the steps necessary to access the “Response to Request for Quotation Screen” (PR612) and record a new vendor response.

## PR604 - Quotation Management Screen

[illegible]

STEP	ACTION
<b>PR606 - Response to Request for Quotation Screen</b>	
1.	Double click on the RFQ in which a new vendor response should be recorded.
2.	PR604 appears.
<b>PR604 - Quotation Management Screen</b>	
3.	Click on the “Create Record” icon in the toolbar (i.e., the “green plus”) to open the “Request for Quotation Screen” (PR612) in entry mode.

**10.6      Updating a  
Vendor  
Response**

This procedure describes the steps necessary to access an existing vendor response in the “Response to Request for Quotations Screen” (PR612) in order to update vendor response information.

Note: This function is not applicable for responses that have been flagged for award (i.e. the Dollar icon has been clicked and it is disabled).

STEP	ACTION
1.	From the Quotation Management Screen (PR604), click once on a line item response from the vendor whose response needs updating. This line should turn blue.
2.	Click the “Update” icon in the toolbar (i.e., the “single page”) to open the “Request for Quotation Screen” (PR612) and display the selected vendor’s response in edit mode.
3.	After updating the response, click the “Exit” icon on the toolbar to return to the PR604 screen. If you are prompted with a message asking whether to save changes, click ‘Yes’ to save changes or click ‘No’ to ignore changes.

- 10.8 Comparing Vendor Responses** This procedure describes the steps necessary to compare vendor's response(s) on the PR604 screens. Responses can be compared at three levels. On PR604, the responses can be compared on the line item level. On PR604 p2, responses can be compared at the vendor level, and on the "Responded to all items" level.

STEP	ACTION
<b>PR604 - Line Item Comparison Screen</b>	
1.	Vendor responses will be sorted by LINE ITEM.
2.	Line Items will then be sorted by increasing <b>DOLLAR AMOUNT</b> . Thus, the least expensive vendor response will appear first for each line item and the most expensive vendor response will appear last for each line item.
3.	The <b>ALL OR NONE</b> flag is derived from PR612. If a vendor has the <b>ALL OR NONE</b> flag checked on PR612, then all line items will have the <b>ALL OR NONE</b> flag checked on PR604. Otherwise, this flag will remain unchecked. This flag is not updateable on PR604.
4.	The <b>COMB. FLAG</b> is derived from PR612. If a vendor has any items included in a combination on PR612, then all items in the combination will be flagged on PR604. The PR604 screen does not differentiate between combinations. Thus, to determine which items have been combined for the vendor, the PR612 screen must be accessed.
5.	Click the VENDOR COMPARISON button to access PR604 p2 Screen (i.e., Vendor Comparison Screens)

<b>PR604 p2 - Vendor Comparison Screens (All Vendors)</b>	
6.	The <b>ALL OR NONE</b> flag is derived from the PR612. If a vendor has the <b>ALL OR NONE</b> flag checked on the PR612, then all line items will have the <b>ALL OR NONE</b> flag checked on the PR604p2 screens. Otherwise, this flag will remain unchecked. This flag is not updateable on the PR604 p2 screens.
7.	<p>The <b>RESPONDED TO ALL ITEMS</b> flag is based upon a vendor response entered on PR612. If a vendor has entered in a unit price for every item on the PR612, then this flag will be checked on PR604p2. Otherwise, it will remain unchecked. This flag is not updateable on the PR604 p2.</p> <p>Note: This flag can distinguish whether a vendor's low Total Proposed Price may reflect one line item's price as opposed to the cost of all line items, for example.</p>
8.	By doubling clicking in the <b>VENDOR NO</b> field for a particular vendor, PR612 will become active. The screen will be populated with the response data for the vendor chosen in read-only mode. By then clicking the exit icon on PR612, PR604p2 will become active once again.

11.	The <b>ALL OR NONE</b> flag is derived from the PR612. If a vendor has the <b>ALL OR NONE</b> flag checked on the PR612, then all line items will have the <b>ALL OR NONE</b> flag checked on the PR604 p2. Otherwise, this flag will remain unchecked. This flag is not updateable on the PR604 p2.
12.	The <b>RESPONDED TO ALL ITEMS</b> flag is based upon a vendor response entered on PR612. On this screen, the <b>RESPONDED TO ALL ITEMS</b> flag will always be checked, since this screen depicts only those vendors who have entered in unit prices for every line item. This flag is not updateable on the PR604 p2.
13.	The <b>TOTAL PROPOSED PRICE</b> is derived from the <b>TOTAL</b> field on PR612. This screen will sort only those vendors who have entered in unit prices for each line item and thus the <b>TOTAL PROPOSED PRICE</b> will be sorted in ascending order, accordingly.
14.	Click the <b>ALL VENDORS</b> button to access the first page of PR604 p2 Screen. Otherwise, click the <b>LINE ITEM COMPARISON</b> button to return to the PR604 Screen (The Main Screen).

STEP	ACTION
1.	<p>From the Quotation Management Screen (PR604), click on the AWARD FLAG to select a line item from the vendor whose response you wish to award.</p> <p>Note: If any of the line items are above tolerance, the system will warn the buyer with a pop up message. Click "OK" on all tolerance messages, they do not effect the process of flagging the response for award. However, when these items are pulled onto a purchase order, if the line item(s) that exceed tolerance are included, then the purchase order will not be approved.</p>

1a.	The line item is part of a combination...	<p>a. A message will appear that all line items in this combination must be flagged for award.</p> <p>b. By clicking “OK” on the message, all items in this combination will be automatically flagged for award.</p> <p>c. If you choose not to flag this line item for award, then uncheck the <b>AWARD FLAG</b> beside the line item.</p> <p>d. A message will appear that all line items in this combination will no longer be flagged for award.</p> <p>e. By clicking “OK” on the message, all items in this combination will be automatically unchecked and thus not flagged for award.</p>

COMMERCE SMALL PURCHASES SYSTEM (CSPS)

STEP	ACTION	
	IF...	THEN...
1b.	The vendor is an “All or None” Vendor...	<p>a. A message will appear upon clicking the <b>AWARD FLAG</b> that all line items for this vendor must be flagged for award.</p> <p>b. By clicking “OK” on the message, all line items for this vendor (with unit prices entered) will be automatically flagged for award.</p> <p>c. To not flag the line item for award, then uncheck the <b>AWARD FLAG</b> beside the line item.</p> <p>d. A message will appear that all line items for this vendor will no longer be flagged for award.</p> <p>e. By clicking “OK” on the message, all items for this vendor will be automatically unchecked and thus not flagged for award.</p>
		<p>Note: An “All or None” Vendor does not need to have a unit price entered for every line item on PR612. However, to flag the RFQ for award by clicking on the “Award” icon, all items must have unit prices entered. Thus, another vendor will have to be flagged for award for the particular line item(s) that the “All or None” Vendor did not price.</p>

COMMERCE SMALL PURCHASES SYSTEM (CSPS)  
PROCUREMENT DESK PROCEDURES

STEP	ACTION	
	<p>Note: Conflicts may also arise which force the buyer to select whether to award to an “All or None” Vendor or to flag an item for award that is in a combination.</p> <p>Note: For example, if a vendor is an “All or None” Vendor but has not entered a unit price for one item, then this item is still available to be flagged for award by a different vendor. There may be conflicts, though, if the other vendor has this line item in combination with another line item.</p>	
	IF...	THEN...
1c.	<p>The above example is true...</p>	<p>a. A message will appear which states that the buyer will have to select either the “All or None” Vendor or the item in a combination.</p> <p>b. The buyer will then have to choose whether to flag the “All or None” Vendor for award or to unflag the “All or None” Vendor so as to be able to flag the combination items instead.</p>
	<p>If the scenario were reversed and a combined item had been flagged for award, then an “All or None” Vendor could not be flagged for award. For instance, if the RFQ contained 4 line items and the first two line items were combined and flagged for award to vendor 1, then line items 3 and 4 could not be flagged for award to a “All or None” Vendor. The buyer would then have to decide which offer or combination is in the best interest of the government.</p>	
2.	<p>The vendors can be flagged for award (i.e., clicking the \$ icon) on either the PR604 or PR612.</p>

To fully flag the RFQ for award, repeat the steps above for the remaining line items.</p>
	The buyer is flagging the response on PR612...	<p>a. Click the “Award” icon on the toolbar (i.e., the “dollar sign”) to flag the current vendor’s responses to this RFQ for award.</p> <p>b. 3.	<p>Note 1: The system will not allow the RFQ to be awarded prior to the closing date (i.e., the “Award” icon will be disabled).</p> <p>Note 2: Once the award process is complete, the “Create” and “Update” icons on the toolbar on PR604 will be disabled. To view the response information on PR612 at a later date, the buyer must use the “View” icon on the toolbar on PR604.</p> <p>Note 3: If any of the line items are above tolerance, the system will warn the buyer with a pop up message. Click ‘OK’ on all tolerance messages, they do not effect the process of flagging the response for award. However, if these items are pulled onto a purchase order, they will fail tolerance and the purchase order will not be approved. One possible solution is that a new requisition with replacement line items could be created for the specific line items that exceed tolerance.</p>
4.	<p>After awarding the response, click the “Exit” icon on the toolbar one time to return to the PR606 screen and then again to return to the Main Menu.</p>
5.	<p>After the response is flagged for award, no changes can be made to PR604 or PR612. You may view the responses on these screens in read-only mode.</p>
